Hong Kong learned from SARS. Amid the coronavirus outbreak ...

The financial markets and SARS The response of financial markets to the economic effects of SARS has been calm. But vulnerabilities still persist. Financial markets in Hong Kong seemed to have behaved remarkably calmly in the second quarter, as SARS raged, hurting rather badly many sectors of the economy.

Despite their proximity to China, Hong Kong and Singapore have managed to keep COVID-19 infections and death extraordinarily low. Why it matters: As coronavirus cases surge in parts of the U.S., it's natural to look at the examples of cities that have handled the disease better. But the single most important factor may be something the U.S. can't replicate: the experience of the SARS outbreak ...
