If You Can't See, Drive Backwards. If the load is too high and you cannot see where you are going, avoid the temptation to raise the load up above your line of site. Any time you have the load high, you risk losing items or the forklift tilting over. The correct thing to do if your line of site is blocked is to go in reverse with the load low.

15 Forklift Safety Tips [Industry Expert Advice for Safe ...

Cross docking is a logistical strategy where products and materials are unloaded from one inbound source (truck, railcar, etc.) and then immediately moved onto outbound transportation with as little storage time as possible. This is desirable because the longer products sit in a warehouse or other storage location, the less overall value they provide.
